

Free Webinar on **Fraud Prevention**

a Northern California Chapter HFMA co-sponsored event
with Moss Adams LLP

Thursday, August 19 | 10:00 - 11:00 AM PST

In this difficult economy, employee theft is on the rise—and the health care industry hasn't been immune to it. In this session, we'll show you how strong internal controls can help thwart this alarming trend.

REGISTER ONLINE

SPEAKERS

Tony Andrade, Business Assurance Partner Moss Adams LLP

Tony more than 15 years public accounting experience working with health care organizations including hospitals, group medical practices, dental practices, ambulatory surgery centers, home health agencies, hospices, skilled nursing facilities, dialysis centers, IPA's and community health centers. In addition, Tony has also been involved with internal control reviews of hospitals, medical groups and outside billing agencies; benchmarking performance studies between several hospitals with industry means, assistance with preparation of hospital operating and cash flow projections and forecasts and claims reviews of an insurance contract between the insurance plan and employer. Tony leads the Oregon and Southwest Washington health care practice and is a member of the firm's Health Care Executive and Assurance committees.

Marcy Boyd, Business Assurance Senior Manager Moss Adams LLP

Marcy has more than 10 years experience in both public and private accounting. Her public accounting experience has focused on consulting and auditing of health care organizations, including rural and community-based primary care facilities, long-term care organizations, managed care organizations, hospitals, outpatient care facilities, outpatient surgery centers, large medical groups, and independent practice associations (IPAs). During her three years in private accounting, she acted as the Chief Financial Officer for Oregon Community Health Information Network (OCHIN). Marcy has assisted numerous organizations with operational efficiency analysis, controls analysis, cash-flow projections, budgeting projects, and other operational engagements.
